THE MUSCULAR SYSTEM

**The muscular system helps the body move.
Different muscles move different parts of the
body.**

Most muscles work in pairs. One muscle contracts when the other muscle relaxes. This action causes a part of the body to move.

Legs have many pairs of large muscles. Leg muscles help people jump.

Large muscles in the arms and back work together. These muscles help people climb.

Small muscles in the hands work together. Hand muscles help people draw.

Small muscles in the face work together. Face muscles help people smile.

Some muscles work all the time. The heart is a muscle. It pumps blood through the body.

Sometimes many muscles in the body work together. People use many muscles when they swim.

Exercise keeps muscles healthy. Muscles grow stronger when they are used so be sure to exercise everyday!

DEMONSTRATIVE PRONOUNS

This – These

This
(near)

This is a duck.

That – Those

That
(far)

That is a monkey.

These
(near)

These are ducks.

Those
(far)

Those are monkeys.

Let's practice using items in our houses!

HAVE, HAS

I
YOU
WE
THEY } **HAVE**

I **have** a black car.

We **have** a white car.

They **have** a big car.

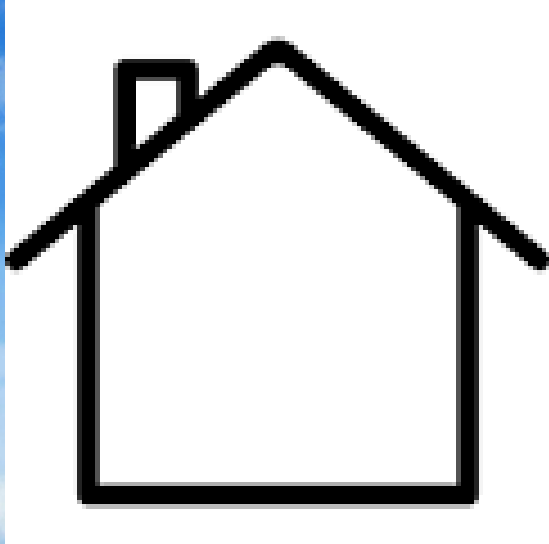

He
She } **HAS**

He **has** black hair.

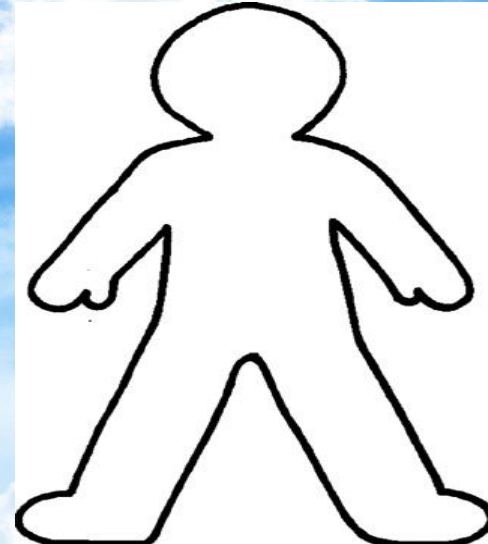

She **has** red hair.

LET'S PRACTICE
