WATER SAFETY

When it's super hot outside, you cool off in the water. But let's go over some water safety rules before you jump in!

**First, you should always check to be sure that there is a lifeguard on duty.
Next, you need a swimming buddy. If you are in trouble, he can tell the
lifeguard.**

When you are at the pool you can only dive in water that is deep enough and you should never run.

Boat safety is a little bit different. Everybody needs a life jacket and you must stay seated while the boat is moving.

The Ocean has waves, currents, and animals. Flags show when it is unsafe to enter the water.

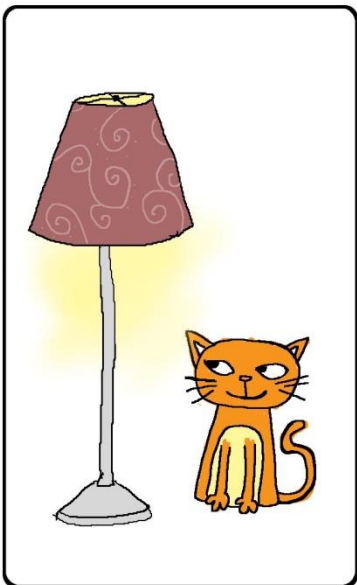

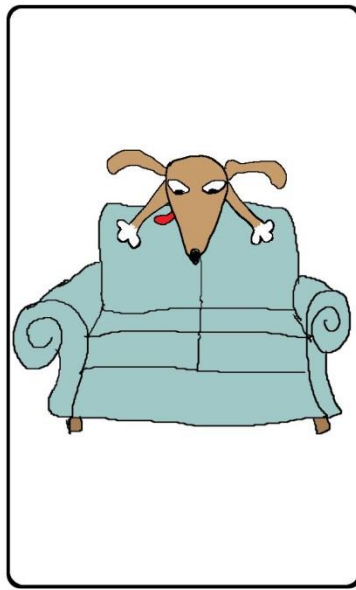

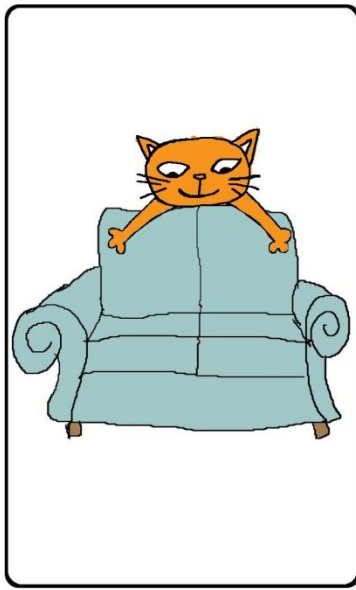

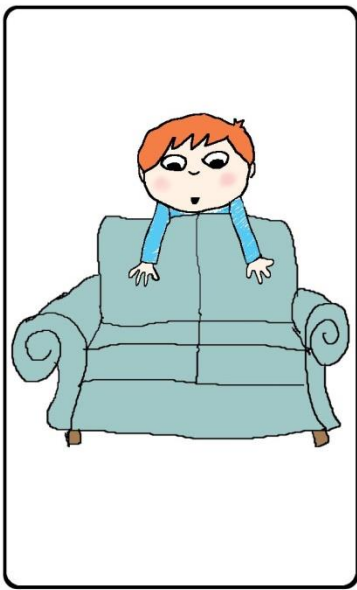

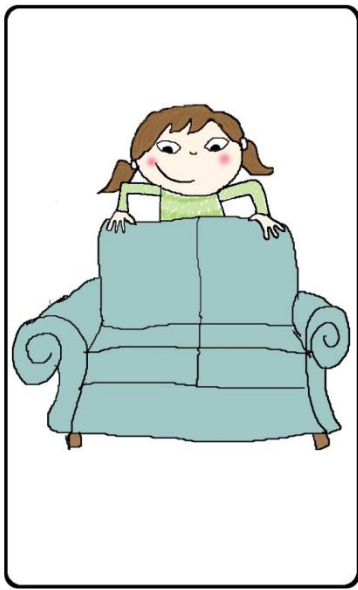

**Uh-oh! A storm! Never swim when there is lightening.
It is very dangerous.**

Ah, safe and dry! Swimming is fun, just be sure to do it safely!
