A Fun Game

Basketball is a fun and fast **sport**.
People play basketball with an
orange ball and a **hoop**.

Story of a Sport

Long ago, a teacher wanted a new sport for his students. The winters were too cold to play outside.

Boys, girls, men, and women began playing on basketball teams.

The teacher put peach baskets
on a wall and made a new game—
basketball.

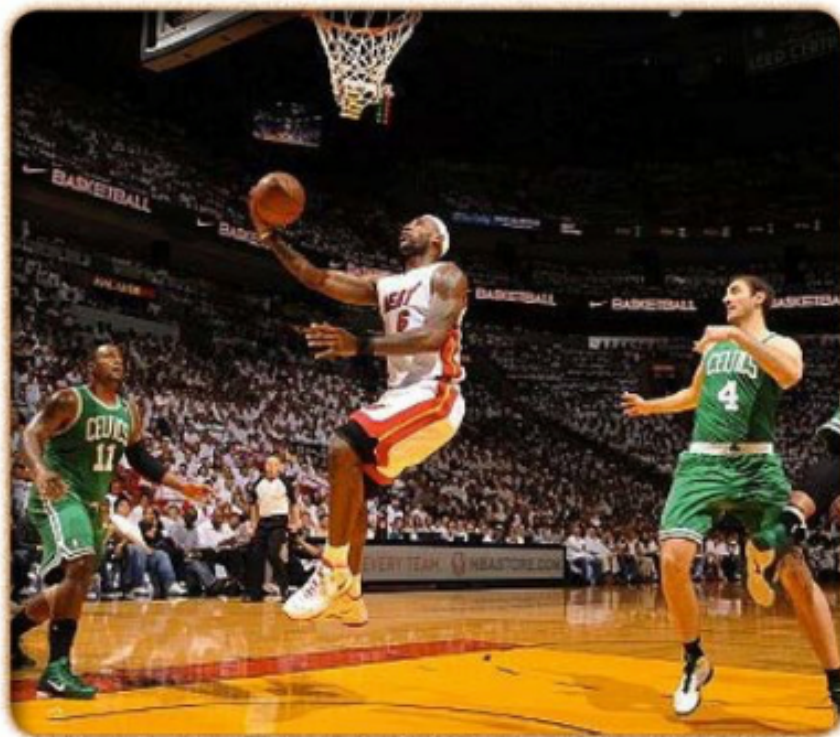

People play basketball indoors, in parks or playgrounds, or even on top of buildings!

Basketball Today

Today, students in schools everywhere have fun playing basketball.

All they need is a basket and a ball.

Basketball players move very quickly. They jump high to make a basket and score points.

How to Play

In a basketball game, there are two teams.

Teams **score** points by throwing the ball through the other team's hoop.

The team that ends the game with the most points wins!

Players must learn to bounce the ball as they move. They throw the ball to a teammate who can make a basket.

Players can only move the basketball in two ways.

They can **bounce** the ball while they walk or run.

They can also throw the ball to another player.

These children are playing basketball in Cuba.

A Sport for Everyone

Basketball has grown since it was **created** long ago. Today, basketball is all around the world.

The sport is in schools and parks everywhere. All you have to do is pick up a ball and find the nearest hoop!

Great work! What did you learn about basketball?

We will now look at words of frequency

How can we use the words
“usually”, “often”,
“sometimes”, “never”, or
“always” in a sentence?

I usually score a goal when I
play soccer.

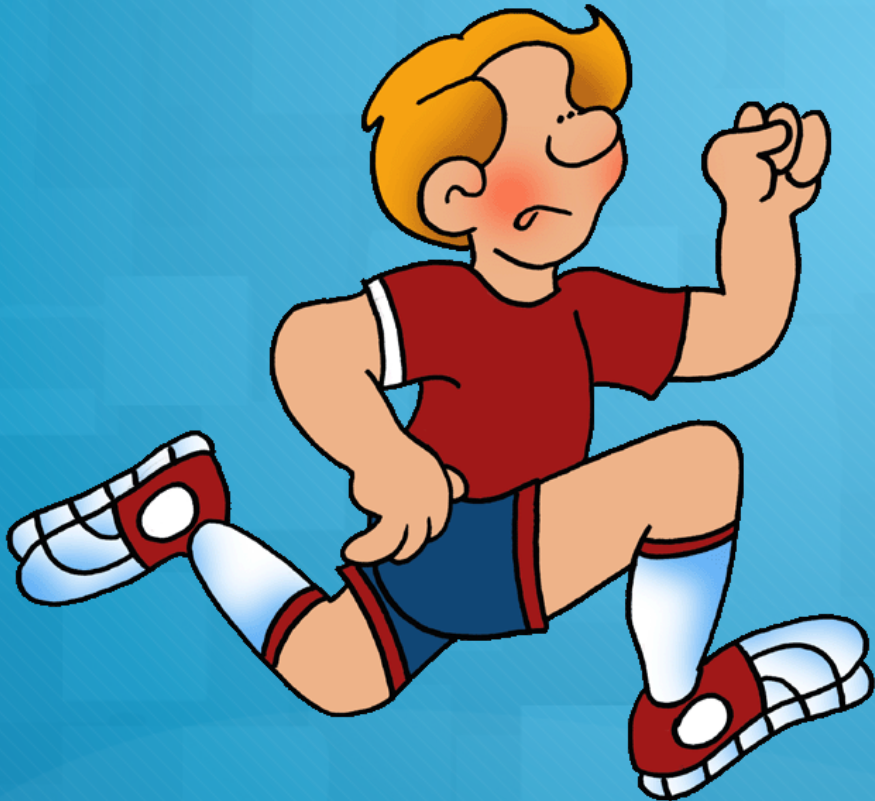

GOAL

I often cheer for my teammates
when they score!

I sometimes eat a healthy meal
before my basketball game.

I never play tennis.

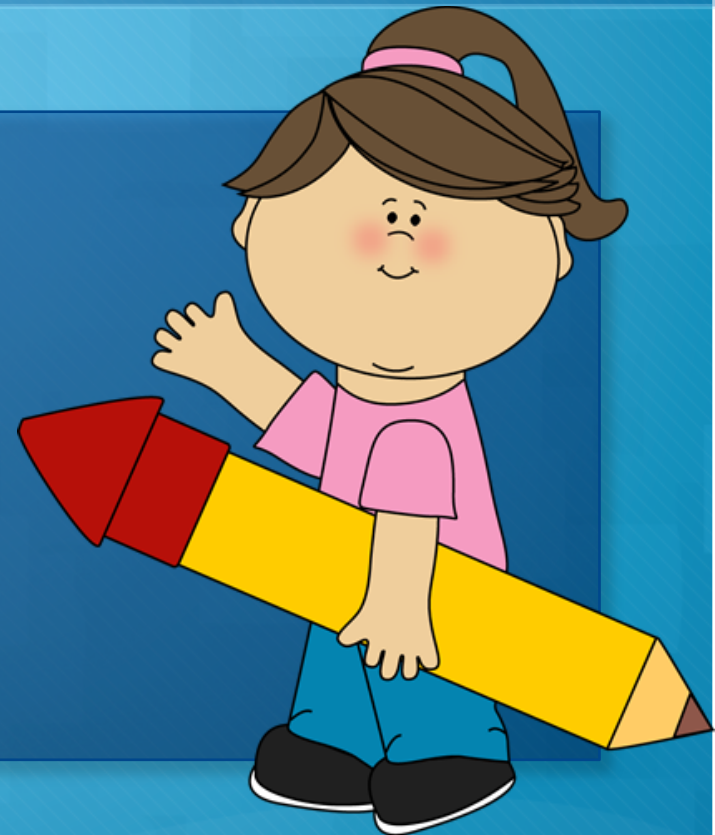

I always stretch before playing badminton.
