You have been hurt

you know that it's bad.

A bandage
won't work

so call Mom and Dad.

The ambulance
will have a kit

and get you to the
hospital lickety-split.

H
HOSPITAL
QUIET
PLEASE

When you
get there, you
will find

gloves and

masks and

papers to be signed.

The needle will hurt

it feels just like a pinch.

Then they'll listen to your heart

You don't need
to flinch!

They'll use special tools

to see what
is wrong,

They'll check on
your bones

to see if they're strong

If your doctor
tells you to rest

you should
pay attention,
they tend to
know best.

Let' talk with Chantal the nurse!

1. How many medical tools can you name from the story?
2. Have you ever been to the hospital when you were hurt?
3. What is a nurse's job?
4. What is a doctor's job?
