Instructional Strategies

Slide 1	Introduce the idea that review lessons are their opportunity to ask questions and review and discuss new learning. What questions do they have? What did they
---------	---

	want to talk about?
Slide 2	"LY" suffix. How to make adjectives into adverbs. What do these words become?
Slide 3	More adverb review. What questions are answered using adverbs. Add to the lists. Perhaps create a class list on chart paper that comes out while you are working with that class.
Slide 4	Forecast words again. Practice and present their forecasts. Can they write and perform new ones?
Slide 5-6	Descriptive words- How can we describe people, places and things with more detail. Again, you may want to create and add to a list that is used with each class.
Slide 7	Simple Future Tense review and practice. This class is based mostly on speaking and reviewing pronunciation.
Slide 8	Will: negative. Review the sentence formula and let them know that they will need this in the future when they WILL BE writing stories and journal entries. Perhaps begin writing sentences together to review this idea.
Slide 9-11	Practice various endings
Slide 12-19	Review the info-graphics all about pollution
Slide 20	Recap everything that you went over in class and give homework.
