

## **SCH3U – Chemistry, Grade 11**

### **GENERAL INFORMATION**

Name of School: Rosedale Academy

Department: Science

Course Developer: Eli Fogle

Development Date: October, 2016

Revision Date: TBD

Course Title: Chemistry, Grade 11

Grade: 11

Course Type: University Preparation

Course Code: SCH3U

Credit Value: 1

Curriculum Policy Document: The Ontario Curriculum Grades 11 and 12 Science, Ministry of Education 2008 (Revised)

Prerequisite: SNC2D

## **COURSE DESCRIPTION**

This course enables students to deepen their understanding of chemistry through the study of the properties of chemicals and chemical bonds; chemical reactions and quantitative relationships in those reactions; solutions and solubility; and atmospheric chemistry and the behaviour of gases. Students will further develop their analytical skills and investigate the qualitative and quantitative properties of matter, as well as the impact of some common chemical reactions on society and the environment.

## **OVERALL EXPECTATIONS**

### **A. SCIENTIFIC INVESTIGATION SKILLS AND CAREER EXPLORATION**

**Throughout this course, students will:**

- A1. demonstrate scientific investigation skills (related both to inquiry and research) in the four areas of skills (initiating and planning, performing and recording, analysing and interpreting, and communicating);
- A2. identify and describe careers related to the fields of science under study, and describe the contribution of scientists including Canadian to those fields.

### **B. MATTER & CHEMICAL BONDING**

**By the end of this course, students will:**

- B1. analyse the properties of commonly used chemical substances and their effects on human health and the environment, and propose ways to lessen their impact.
- B2. investigate physical and chemical properties of elements and compounds, and use various methods to visually represent them.
- B3. demonstrate an understanding of periodic trends in the periodic table and how elements combine to form chemical bonds.

### **C. CHEMICAL REACTIONS**

**By the end of this course, students will:**

- C1. analyse chemical reactions used in a variety of applications, and assess their impact on society and the environment.
- C2. investigate different types of chemical reactions.
- C3. demonstrate an understanding of the different types of chemical reactions.

### **D. QUANTITIES & CHEMICAL REACTIONS**

**By the end of this course, students will:**

- D1. analyse processes in the home, the workplace, and the environmental sector that use chemical quantities and calculations, and assess the importance of quantitative accuracy in industrial chemical processes.
- D2. investigate quantitative relationships in chemical reactions, and solve related problems.
- D3. demonstrate an understanding of the mole concept and its significance to the quantitative analysis of chemical reactions.

**E. SOLUTIONS & SOLUBILITY****By the end of this course, students will:**

- E1. analyse the origins and effects of water pollution, and a variety of economic, social, and environmental issues related to drinking water.
- E2. investigate qualitative and quantitative properties of solutions, and solve related problems.
- E3. demonstrate an understanding of qualitative and quantitative properties of solutions.

**F. GASES & ATMOSPHERIC CHEMISTRY****By the end of this course, students will:**

- F1. analyse the cumulative effects of human activities and technologies on air quality, and describe some Canadian initiatives to reduce air pollution, including ways to reduce their own carbon footprint.
- F2. investigate gas laws that explain the behaviour of gases, and solve related problems.
- F3. demonstrate an understanding of the laws that explain the behaviour of gases.

**OUTLINE OF COURSE CONTENT**

	Name of Unit	Time Allocated in Hours
<b>Unit 1</b>	Matter & Chemical Bonding	23
<b>Unit 2</b>	Chemical Reactions	23
Midterm report cards		
<b>Unit 3</b>	Quantities & Chemical Reactions	23
<b>Unit 4</b>	Solutions & Solubility	22
<b>Unit 5</b>	Gases & Atmospheric Chemistry	19
	<b>Total</b>	<b>110 hours</b>

## TEACHING / LEARNING STRATEGIES

A variety of teaching and learning strategies are used in this course to meet the needs of a diverse range of learners.

- Demonstrations
- Simulations
- Laboratory Activities
- Problem Solving
- Work Sheets
- Problem-Based Learning
- Interactive modules
- Inquiry Based Learning
- Experiments
- Animated Games
- Audio Presentations
- Video Presentations
- Interactive Online Activities
- Guided Internet Searches
- Case Studies
- Graphic Organizers
- Brainstorming/Mind Mapping
- Research Projects

## STRATEGIES FOR ASSESSMENT AND EVALUATION OF STUDENT PERFORMANCE

Assessment and evaluation tools include marking schemes, rubrics and anecdotal records.

Assessment as Learning	Assessment for Learning	Assessment of Learning
<b>Student Product</b> <ul style="list-style-type: none"> <li>• Learning Logs</li> <li>• Peer Assessment</li> <li>• Discussion Forum Posts</li> <li>• Surveys</li> <li>• Practice worksheets</li> </ul>	<b>Student Product</b> <ul style="list-style-type: none"> <li>• Assignments</li> <li>• Quizzes</li> <li>• Practice Problem Work Sheets</li> <li>• Simulator Investigations</li> <li>• Lab Investigations</li> <li>• Forum Posts</li> <li>• Audio presentations</li> <li>• Video Presentations</li> </ul>	<b>Student Product</b> <ul style="list-style-type: none"> <li>• Assignments</li> <li>• Tests</li> <li>• Exams</li> <li>• Lab Reports</li> <li>• Audio Presentations</li> <li>• Video Presentations</li> <li>• Case studies</li> <li>• Research Projects</li> </ul>
<b>Observation</b> <ul style="list-style-type: none"> <li>• Class discussions</li> <li>• Discussion Forums</li> <li>• Quiz results</li> </ul>	<b>Observation</b> <ul style="list-style-type: none"> <li>• Class discussions</li> <li>• Presentations</li> </ul>	<b>Observation</b> <ul style="list-style-type: none"> <li>• Presentations</li> <li>• Performance tasks</li> </ul>

<b>Conversation</b> <ul style="list-style-type: none"> <li>• Whole class discussions</li> <li>• Student-Teacher discussions (Skype, chat)</li> <li>• Student-Student discussions</li> <li>• Debate (Forums)</li> </ul>	<b>Conversation</b> <ul style="list-style-type: none"> <li>• Student teacher conferences</li> <li>• Small group discussions</li> <li>• Whole class discussions</li> <li>• Pair work</li> <li>• Peer-feedback</li> <li>• Forums</li> </ul>	<b>Conversation</b> <ul style="list-style-type: none"> <li>• Oral Presentations</li> <li>• Oral test questions</li> <li>• Student-Teacher discussions</li> <li>• Forums</li> </ul>
--	---	--

## FINAL GRADE

The percentage grade represents the quality of the students' overall achievement of the expectations for the course and reflects the corresponding achievement as described in the achievement chart for science.

1. Term work will be 70% of the overall grade for the course;
2. The final written exam will be worth 30% of the grade.

## Achievement Categories

Knowledge & Understanding	25%	Thinking & Investigation	25%
Communication	25%	Application	25%

## Achievement Chart

*A Summary Description of Achievement in Each Percentage Grade Range And Corresponding Level of Achievement*

Percentage Grade Range	Achievement Level	Summary Description
80–100%	Level 4	A very high to outstanding level of achievement. Achievement is above the provincial standard.
70–79%	Level 3	A high level of achievement. Achievement is at the provincial standard.
60–69%	Level 2	Moderate level of achievement. Achievement is below, but approaching the provincial standard.
50–59%	Level 1	A passable level of achievement. Achievement is below the provincial standard

Below 50%	Level R	Insufficient achievement of curriculum expectations. A credit will not be granted
-----------	---------	---

## RESOURCES REQUIRED BY THE STUDENT

SCH3U Online Course of Study

## PROGRAM PLANNING CONSIDERATION

### Role of Technology in the Curriculum

Rosedale Academy courses leverage the power of information and communication technologies to provide rich, dynamic learning experiences. Students explore, evaluate and create concepts and works using a wide array of digital tools. They demonstrate their learning through text, video, voice and visual assignments that teach multi-literacy and media skills. Students also enhance their computer and technology skills in ways that are useful for their future academic and personal pursuits.

Teachers at Rosedale Academy get to know their learners, provide rich, descriptive feedback and assess student contributions and products AS, FOR and OF learning through digital technologies. They enable rapid feedback and communication at any time without borders in our global community.

Tool	Use	Benefit
<b>Discussion forums</b>	Whole class discussion (written)	Creates a record of each student's contributions.
<b>Group activities</b>	Small group collaboration and discussions.	Encourages student participation.
<b>Live Skype sessions</b>	Teacher leads the lesson with students as a class. Teacher holds reviews sessions with whole class or individuals.	Observations of whole class and individual students. Assessment for learning.
<b>Computer Simulations</b>	Individual or class exploration and visualization of concepts relating to the curriculum.	Allows hands-on exploration and investigation as an alternative learning strategy.
<b>Online Lab Investigations</b>	Application of concepts relating to the curriculum.	Allows students to experience laboratory environment in an online setting and apply proper laboratory techniques.
<b>Learning Modules</b>	Students explore content in an interactive manner with built-in assessments as they progress.	Students can navigate content at their own pace and assess their own learning along the way.
<b>Articulate Storyline Presentations</b>	Content is presented in an interactive manner with multimedia elements and assessments built-in.	Varied presentation style caters to different types of learners. Students can assess their own learning as they progress.

<b>Padlet</b>	Bulletin board activities showing content found around the internet	Allows a space for collaborative research for students and an opportunity to share ideas and resources
<b>Glossary</b>	Vocabulary reference and recording.	Allows students to reference key course vocabulary.

### English as a Second Language

Rosedale Academy provides students with comprehensive ESL support to enhance their proficiency with the English language.

- All Rosedale Academy instructional materials and resources are designed with English Language Learners in mind. Online and face-to-face instructional resources make use of differentiated learning methods and carefully structured language. These resources support English language development as students are taking credit courses in all academic fields.
- Teachers at Rosedale Academy provide a variety of accommodations for English Language Learners. These accommodations include: extended time for tests and exams; chunking of assignments and tests; a safe space for asking questions; formative feedback; mini-lessons in spelling, sentence structure and grammar; and access to ESL resources and expert discussion.
- The self-paced delivery method of this course allows students to take the time that they require to engage in meaningful participation while still enjoying the enriching experience of working in an online global classroom.
- All teachers at Rosedale Academy are responsible for helping students to develop their ability to use English in academic courses.

### Career Education

This course promotes skills effective for a variety of careers and informs students of some of the career opportunities where oral and written communication is considerable assets. Students will learn how to use English to inform audiences about ideas, persuade audiences to change their opinion or buy a product, and to formulate ideas. Students will also understand the importance of social media in their search for future education and career opportunities. Finally, this course also helps to prepare students for university application by providing a unit that helps them write a persuasive application essay. Beyond the immediate needs of the student, this also course focuses on demonstrating the value of English in jobs like business where clear communication is highly valued.

**Academic Integrity**

Students are expected to maintain high standards of honesty and academic integrity throughout their participation in all courses. This includes avoiding any instance of fraud, plagiarism and cheating. Rosedale Academy takes the following steps to ensure academic integrity:

- Students provide photo identification
- Course assignments include audio and video components
- Teachers Skype weekly with their classes
- Students are encouraged and supported to develop original work
- Exams are proctored by adults in trusted positions

When a teacher has reasonable grounds to believe that a student has violated these standards, the school principal will review the incident and, if needed, enforce disciplinary procedures. More information about *Academic Honesty* may be found in section 5.3 of the school calendar.

**Late and Missed Assignment**

Independent students have up to 12 months to complete a course. There are no set deadlines for course assignments. Students can proceed through each course at their own pace, but all course requirements must be completed prior to writing their final exam.

Cohort students follow a schedule in each course. This schedule specifies the due dates for all assignments. Students may request an extension if they are unable to meet a specific due date. Rosedale Academy reserves the right to deny any request. Late or missed assignments are not accepted without a valid reason.
